

## ABOUT

Our WetArea Panels are designed for use in bathrooms, laundries, kitchens, and other interior spaces like Homes, Offices, Gyms, Showrooms, and Feature walls—anywhere temperatures stay below 60°C—offering a seamless, moisture-resistant solution with modern appeal.

Key Features:

- Crafted from premium, High-Grade PVC, our panels come primarily in the 2400 x 1000 mm format (10 mm thick) and are available in 24 vibrant colours. Additional sizes maintain the same 1000 mm width and 10 mm thickness.
- 100% waterproof and mould resistant—no grout needed, making cleaning effortless.
- UV-treated lacquered surface allows easy maintenance with just a damp cloth.
- Watertight tongue and groove click system enables quick, hassle-free DIY installation on surfaces like tiles, plasterboard, concrete, brick or almost any surface using only common tools.
- Backed by a 10-year replacement warranty.
- Our panels provide a stylish, cost-effective, and low-maintenance solution that elevates any interior.
